Subject: RE: Soudelor & Gold King Draft Org Chart

The EU had our regular call at 9 AM Pacific Time, Gerry and I both called in. The main topics discussed were:

- accepting the proposal to use the data report tables worked out during Deepwater Horizon to standardize data presentation
- acknowledging the DWH data tables might not be sufficiently simple and informative for some interested parties, so we have to be prepared to talk people through the data
- further debates about what recreational scenario to use, leading to a draft which Gerry is reviewing right now

There was no discussion of ecological receptors.
